Conference Sponsorship Opportunities

This one-day intensive event will be the definitive maritime biofuels conference to be held in the US in 2008 and will focus on the growing importance of the biofuels industry on the maritime sector. As the demand for bioenergy increases, so does the need to move the associated raw materials and refined products efficiently - and that largely means by sea. This US based event provides an update on the global bioenergy industry and relates that to opportunities for the maritime sector. It will look specifically at opportunities for the US international market in terms of trade with Latin America, Asia and Europe as well as domestic coastal and inland shipping. Ports, terminals and storage will also be discussed along side the emerging regulatory framework, pricing and trading mechanisms and a look to the future. There will be plenty of opportunity to network with leading industry representatives.

We invite you to participate in this inaugural conference as a sponsor and a range of options are detailed on the following pages.

Please feel free to contact us to discuss your requirements and, as you would expect, we are happy to tailor sponsorship packages to suit your specific requirements.

Over 150 delegates attended the 2007 London event representing the following sectors

Primary Sponsor

One sponsor only from each industry sector

Price: \$10,000

Package:

- Logo on the conference website with link to your website
- Logo on the front of the conference brochure and all primary marketing material as a primary sponsor
- A corporate profile will be included in the conference brochure (100 words)
